

Ezi-action® Powder Measure

Set, Scoop and Shake

Measuring powder and granulated material has never been simpler than with the adjustable Ezi-action® Powder Measure.

Set the Ezi-action® Powder Measure to the required calibrated graduation mark. Then with the port side away from you, simply scoop the Ezi-action® Powder Measure into the product. Then, with two or three gentle movements shake the excess material away. It will fall out through the unique port side opening.

The Ezi-action® Powder Measure is a proven business tool and can be customised with a coloured inner and labelling.

Standard Features include:

- Polypropylene construction – chemical resistant and durable.
- Safe -Material shaken away from user.
- Adjustable – within the calibrated graduation marks ranging from 200mls to 500mls or 1/2 cup to 2 1/2 cups.
- Reliable – locks on powder contact.

Technical data

Maximum Measuring Capacity	Material	Packaging
Metric 500mls USA 2 1/2 cups	Polypropylene	Each Powder Measure is packaged with instructions in a plastic bag.
